

Naturally Appropriate

AVAILABLE IN MANY COLOURS

Product Guide | Bamboo Blinds

Bamboo and woven-wood blinds create a warm atmosphere in any room. Versatile and durable, they are also an eco-friendly choice for the environmentally conscious. Bamboo blinds are handmade from totally natural material, which adds to their charm. Due to their organic nature, colour variations and imperfections in the material are not uncommon.

Making life better

AVAILABLE IN MANY COLOURS

Product Guide | Voile Delux

Our Lumi Voile Delux Blind combines the beauty of a curtain with a soft linen fabric and the practicality of a blind with its rigid PVC slatting. The idea behind this is to have a translucent curtain with a blackout blind hidden behind it. For varying degrees of privacy and light control, the PVC slats can be rotated. This blind is easy to clean, as the fabric can be unclipped and washed.

Always adding Value!

AVAILABLE IN MANY COLOURS

Product Guide | Lumi Voile

As the name suggests 'voile' or fine soft sheer material is suspended vertically either side of fabric covered PVC slats. Perfect for an entire wall of windows or large window opening, such as French doors. The slats can be rotated creating a myriad of degrees of light control, adding a warm glow to any room. Depending on the material chosen varying degrees of privacy are possible.

Quality Everytime!

AVAILABLE IN MANY COLOURS

Product Guide | Lumi Vela

Unique in design with sheer material suspended horizontally on either side of fabric slats, Luminos Lumi Vela blinds softly diffuse sunlight in a room, adding a touch of beauty and grace. These blinds can be effortlessly raised when a clear view is preferred. When fully raised the blinds disappear into the aluminium headrail.

Honeycomb Modern Blinds

AVAILABLE IN MANY COLOURS

Product Guide | Lumi Cel

Lumi Cel blinds are honeycomb pleated blinds made up of two layers joined at the pleats to form 'cellular' compartments. Lumi Cel blinds offer one of the highest energy-efficient and sound absorbent blinds of all window blinds due to their cellular construction, great news if you are energy conscious. Lumi Cel fabrics are available with varying degrees of light filtering shades, providing 100% privacy

A Blind For Any Space.....

AVAILABLE IN MANY COLOURS

Product Guide | Lumi Plisse

These blinds are endlessly versatile due to the way the system operates, especially when minimal gaps are desired between blinds. Lumi plissé blinds are one of the best options when installing on doors with the guide wires ensuring the blind fits close to the glass. Choose from over 50 different configurations and shapes which can be operated by pull cords, handles or motorised. Ideal for skylight application.

Quality Everytime

AVAILABLE IN MANY COLOURS

Product Guide | Lumi Doppio

Soft horizontal fabric slats are interspersed with sheer material, which is then looped onto a headrail and bottom rail, leading to the double effect. By slight operation various combinations of fabric positions are possible: sheer material front and back allowing for maximum natural light; sheer material with fabric slat for a more muted feel; or fabric slat front and back to darken a room.

Modern Retro

AVAILABLE IN MANY COLOURS

Product Guide | Lumi Wave Blinds

If you prefer to be unique and always on the look out for something unusual, we have the ideal product for you. The Lumi Wave blind is manufactured by carefully cutting each slat in a "wave" shape to provide a statement piece to your home. This blind is not only visually appealing but is fresh and exciting. The Lumi Wave is available in a host of plain Translucent colours with a "chambray" look.

Great Variety

AVAILABLE IN MANY COLOURS

Product Guide | Panel Vertical Blinds

Luminos has developed its own premium panel vertical that has the creative appeal of a panel blind but uses a vertical track system. The 250mm wide panels are joined vertically using our own range of 50mm Basswood slatting, giving the blind a fresh, contemporary and very modern look. Headrail options in five different colour variations allows you to match it to your chosen materials.

Sheer Sophistication

AVAILABLE IN MANY COLOURS

Product Guide | Vertivoile Blinds

Made up of a combination of sheer and opaque textured fabric, you can decide how much light and privacy you need. Vertivoile blinds are fully retractable so you can still enjoy an open view when required. Washable, durable and available in various colours, these blinds look stunning in both bedrooms and living areas. The soft, flowing vanes allow you to walk through the blind at any point.

Dramatic & Bold

AVAILABLE IN MANY COLOURS

Product Guide | Panel Blinds

Ideal for large openings and dramatic statements. Panels from 40cm to 120cm glide on a special aluminium track. Stacking one behind the other, these panels can be made up of almost any fabric combination, including woven wood. Panels can be made to suit your requirements by combining different fabrics on one panel using wooden accents or by alternating fabrics of your choice.
